

Produced by Delta Aluminium: Made for Europe

Delta Aluminium - a fully integrated industrial investment company, located in Romania / Slatina - has a production capacity of 18.000 tons/year in a location that covers more than 22.000 m².

The company's logo "**Recognize the quality**" is constantly put into evidence by an international professional management team which is continuously upgrading itself **adding value to the company**.

Alloys used: 6060 (AlMgSi), 6063(AlMg0,7Si),6005(AlSiMg), 6082(AlSi1MgMn) 1050A(Al 99,5) and 1070A(Al99,7).

Temper: T4, T5, T6, T66

Since 2006 Delta Aluminium has developed and improved constantly, starting with one extrusion line of 6", gets experience and more requests from new customers - therefore it is time to go for the second extrusion line of 4". The biggest press from the factory of 9" starts production by the end of 2015.

Continuos **upgrading** is the key of success in a factory: nitrating dies area, cleaning dies shop, 2 powder coating lines, oven for wooden foiling profiles, the pickling area, heat treatment oven, smelter – everything is improved for **flexible delivery terms and competitive prices**.

Custom made profiles – Delta Aluminium has been dedicating itself to producing aluminum extruded profiles for a wide range of markets starting with Architectural systems and Stages to Ladders, Radiators, Greenhouses, Furniture, Air conditioning grills or Automotive industry - **Delta satisfies the most exclusive demands of our customers in different shapes, colors, dimensions, small cutting with small tolerances and CNC machining, drilling, punching etc.**

Delta Aluminium Systems and Curtain Walls – starting with the smallest dimensions of wall thickness for mosquitoes profiles (0.6 mm) to the biggest window sills produced in Romania (320 mm), Delta provides profiles for windows and doors through its partners with over **60 warehouses all over the country and Europe**.

Standard profiles – pipes, bars, angles, Z, T, U – all are at our customers' disposal.

*New challenges arrive by the end of 2016 starting a new collaboration with **AluPergo** in shade systems field – **big, heavy and strong aluminium profiles.***

Packaging section – *wooden pallets, cardboard strips, interleaved paper and cartoon – all these to protect and preserve the **quality that keeps our customer satisfied.***

Quality is what brings our customers back for a continuous flux of orders. *CE, SR EN ISO 9001: 2008 , SR EN ISO 14001: 2004, Zwick tester machine – all these certify **Delta Aluminium to produce in Romania for Europe .***

NBR Delta Tube SRL

*By the end of 2016 Delta Aluminium started a strategical **joint venture** with **NBR Aluminium Tube** by getting a new Press of 6”, exclusive for producing tubes from 1050 (Al99,5) and 1070(Al99,7) alloys used for refrigerators cooling components - **the only producer on Romanian market.***
